Dear Colleagues,

Welcome to the International Bowel Ultrasound Group hands-on workshop "Introduction to intestinal ultrasonography".

This IBUS workshop, which is the 1st module of the IBUS Curriculum, has been developed by a group of international experts in IBD and intestinal ultrasound (IUS), involving presentations, videos, and hands-on sessions. You will learn about the basics of intestinal ultrasound (IUS) and the role of IUS in diagnosis, follow-up of treatment, and complications in IBD.

After this workshop, you will have basic knowledge on the use of IUS in clinical practice and be ready for further training in Module 2 and 3 of the IBUS Curriculum.

We are looking forward to meeting you in Italy!

Best wishes,

Mariangela Allocca and Giovanni Maconi
